## FRENCH RUSHING MEN TO THE NORTHERN FRONT

### BIG ARMY IN FLANDERS TO HELP THE BRITISH AND BELGIANS

#### ALLIES ALONG THE YPRES CANAL MAINTAIN VIOLENT OFFENSIVE--AIR FIGHTS OF HOURLY OCCURRENCE

Paris, April 28.—Two hundred thousand French troops are being rushed to Flanders and Northern France to be massed between Ypres and Dixmude and aid in pushing back the latest German drive. All traffic has been stopped, giving troops a clear way.

The French have gained half a mile on the eastern slopes of the Meuse heights.

#### ALLIES MAINTAIN OFFENSIVE

London, April 28.—Several German trenches, six quick-firers and 2000 prisoners were captured by the allies at Hetsa Tuesday. The allies between Ypres and Dixmude, along the canal, are growing violently offensive, incessantly attacking the German front.

Most spectacular air fights occur daily, so high that artillery cannot reach them.

#### TOOK IMPORTANT TOWN

Paris, April 28.—The British have captured St. Julien, three miles north-east of Ypres.

## GETS ITALY'S GOAT

#### TO HAVE FRENCH AND BRITISH PAPERS INDULGE IN GIBES

Rome, April 28.—King Victor Emmanuel today cancelled all engagements to devote his time solely to the international situation. The sarcastic comment of the French and English newspapers are having an irritating effect upon Italian public opinion and arousing sharp criticism of England.

#### ANOTHER BOAT TIED UP

Buenos Ayres, April 28.—The Italian ministers to Argentine and Paraguay have "ordered to immediately return to Italy" all the Italian residents absent without leave.

The steamer Atlantio, plying between Italy and South America, has been requisitioned by the Italian government.

## AN AUSTRIAN SUBMARINE DISTINGUISHED ITSELF

### SENT A BIG FRENCH CRUISER TO THE BOTTOM OF THE ADRIATIC SEA

Paris, April 28.—The French armed cruiser Leon Gambetta has been torpedoed and sunk in the Adriatic. Part of her crew of 725 was saved but the loss of life is heavy. It is believed she was attacked by an Austrian submarine from Pola.

#### DIED AT THEIR POSTS OF DUTY

The commander and all his staff died at their posts when the Gambetta sank at the entrance of the Otranto canal. One hundred and thirty-six sailors were saved by Italian boats.

#### ITALY WILL INVESTIGATE

Rome, April 28.—The French cruiser Gambetta is reported to have been in Italian waters when she was sunk by the Austrians. Italy is investigating.

## EXAMINATION OVER

#### IN HANDS OF SKILLED LAWYER. TEDDY MAKES MANY ADMISSIONS

Syracuse, N. Y., April 28.—The cross-examination of Col. Roosevelt in the \$50,000 libel suit was completed at 10:45 this morning, after the colonel admitted making certain speeches throughout New York last October, attacking William Barnes and alleging that Barnes was in combination with Charles Murphy.

To get the most "affirmative good legislation" he could at Albany was his motive in consulting "Boss" Platt, Roosevelt declared on re-direct examination this afternoon. He contended that all his dealings with the "boss" were for the betterment of the organization. There was a hot tilt when the defense charged that Ivins was misleading Roosevelt on the stand.

#### GAME WITH WINTER PARK THIS AFTERNOON

The visiting team from Winter Park arrived on the afternoon Seaboard, and is ready to play with our boys if rain does not spoil the game. Rain is much needed, but if the weather clerk had been wise to his job, he would have held it off until 11 p. m.

The Ocala line-up is as follows:  
Chazal, J. C.; Thompson, R.; Harris, I.; Zawadzki, S.; Dewey, B.; Davis, 2b; Chazal, 1b; Bullock, c; Gallo-way, p.

#### The Rollins' Team

The following lineup of the Rollins team:

A. W. Mason, p; V. Taylor, c; W. Hunter, 1b; G. Roberts, 2b; G. Demming, 3b; H. Porter, ss; R. Trovillon, rf; Vic Williamson, cf; W. M. Hunter, lf; Frank Ward, E. Rose and E. Keezer are substitutes and will be used in tomorrow's game. Accompanying them from Winter Park are Rev. W. L. Barze and Mrs. Mason, wife of Manager Mason.

The visitors are comfortably lodged at the Ocala House. Mrs. Passut, the stewardess, took particular pains in special arrangement of the elegant dining room in their honor, and had dinner ready for them on the minute. They are a fine-looking bunch of young men.

#### McCREARY WAS NOT MOLESTED

Galveston, April 28.—Phil McCreary, the American newspaper man reported Sunday to have been sentenced to be shot by Carranza at Vera Cruz, arrived on the steamer Tampico from Vera Cruz today. He said he was never in trouble in Vera Cruz. Tampico and Vera Cruz are quiet.

I know of nothing so quick to relieve a cough or cure a cold." For sale by all dealers.—Adv.

## CAME, SAW AND WAS CONQUERED

#### Fruit Grower from South Florida Buys Half Interest in Hiawatha Lake Stock Farm

A very important trade has just been finally consummated in Ocala, although the matter has been under way for several weeks. Mr. C. S. Blood, an extensive grapefruit grower of Terra Ceia Island, has bought an undivided one-half interest in Mr. H. H. Whitworth's beautiful mile-square Hiawatha Lake Stock Farm, located three miles southwest of the city, with all of the personal property and the great herd of red Duroc blooded hogs, the Jersey cattle and horses.

#### Who Mr. Blood Is

Mr. C. S. Blood is a man of means and influence. He has a wife and one son, Mr. Willard C. Blood, who will come to Ocala in a short time and take active charge of his father's interest in the farm. As soon as Mr. Blood can dispose of his valuable grapefruit grove on the South Florida Island, he will move to Ocala and permanently reside here on the stock farm. He has a lovely home, with every modern convenience on the island, and life there is very pleasant, but he has fallen in love with this section and says when he goes back to the island it seems so small and flat that he longs for the farm and the rolling lands of this section.

Mr. Blood came to Florida 26 years ago, from Peoria, Ill. He first stopped at Homeland and built the big plant for the Whittaker Phosphate Company, a Kansas City corporation. He then went to Pebledale and built the huge plant for the Terra Ceia Phosphate Company, a New York corporation with twenty-three millionaires among its stock holders. Later on he went to South America for the same company and did some construction work and mining supervision for it in its gold mining concessions there. Returning to Florida, he located at Terra Ceia Island and planted a grape fruit grove and built a beautiful home. Several years ago he refused an offer of \$50,000 spot cash for his grove. He is a director and stockholder in two of the banks of that section of the state.

Mr. Blood has seen most of the United States and something of foreign countries. Nothing looks so good to him as this section and he is going to settle down to spend his time quietly and happily, raising "red hogs" for the slaughter houses soon to be located in Florida and of course at Ocala, and for the unlimited market in every nook and cranny of the state for breeding purposes.

When asked how he learned of the advantages of this section, of Mr. Whitworth's farm and his red hogs, etc, he said it was his boy Willard, a lad of 28 years. "That boy of mine is a high flier, I do not mean so much a high roller (but he has rolled 'em a little high) but literally a high flier, for he has been engaged in building and flying machines and fast motor boats, but sold out and got out of the business, and became interested in hog raising. It became a hobby with him and he heard of Whit's place and came up here to see him. Returning he told me I must see it too. That it was the best thing he had ever seen—the best hogs and the best farm and the best surrounding country. I told him there was nothing good up there, but he insisted and gave me no peace 'till one day I said, 'all right we will go up there tomorrow and look at your blessed find.' I came, saw and was conquered, and thought it all and a little more than Willard did.

"I got to talking trade with Whit right away and we were not long in agreeing on a price for half interest, and I believe we have out there the

best thing in the state, and he and I and Willard will just put the best that is in us into the work of making it one of the model stock farms of the south."

#### What the Property Consists Of

The Hiawatha Lake Stock Farm is undoubtedly one of the best natural stock farms in the country. There is, as we said before, a square mile of the land. It is high and rolling, with just enough timber, plenty of fencing and cross fencing. Several springs of water that never go dry, and a 10-acre lake of great depth, clear as crystal and supplied by springs in its depths. The land is all very fertile and brings forth abundant crops and is especially adapted to the growing of all feed stuffs. There are ample barns and stables and outhouses of all kinds. A system of water works with gas engine to lift the water. There are two large and comfortable residences and tenant houses besides.

The place is stocked with a great herd of pure breed Red Duroc Jersey hogs, and little pigs are coming along every month in the year and far more than replace the ones that are shipped out over the state for breeding purposes. There is a large herd of blooded Jersey cows, and about 30 head of horses, as Mr. Whitworth has bred the latter most successfully.

#### What Whitworth Has Done

Nearly ten years ago Mr. H. H. Whitworth gave up one of the best salaried jobs on the road, traveling for a harness and saddlery house, bought the property and settled down there. He has been handicapped for lack of capital, but has stocked the place, kept it in jam up shape, made a living for his family and built up a property that is a pride to him and a credit to the country; and has done it all off the place itself, without assistance from outside. Never for a moment has he lost faith in the breeding of stock in Marion county and especially Duroc Jerseys. He has plugged away out there, has had his ups and downs, but has taken the latter like a man, has raised hogs and then more hogs and sometimes it was nip and tuck to make both ends meet, but always, when things looked blue, those same red hogs would come to his rescue and the mail bring a nice little check for a pig or a pair from some far off section of the state, maybe, and the pot would boil again.

At the Marion County Fair for a number of years and at the State Fair at Tampa, Mr. Whitworth has taken more blue ribbons than he could hang on a yard fence, with these red hogs, and in hundreds of homes in the state, now after a lapse of six or seven years, they will remember "Big Dick," his 1200-pound pig exhibited at Tampa, which was the wonder and admiration of all who saw him, and caused many of the natives to exclaim, "Great gawd, is that a hawg or a elephant."

With his new partner, with capital and enthusiasm and faith to operate on, a field that is the whole southern states to ship their breeding stock into and the packing plants to come into the state as they have into Georgia, Mr. Whitworth will lay hold with renewed vigor and help push the fortunes and fame of the Hiawatha Lake Stock Farm to heights and successes never before achieved in Florida on a stock raising proposition.

The Star welcomes the coming of Mr. Blood and his family to Marion county. He has seen what many of us overlook, the great opportunities about us, and will put his time and capital into their development, and here is to success for him and "Whit," as his friends call him.

### RUSSIANS AND ALLIES SEVERELY REPULSED

#### TURKS IN RESISTANCE ON GALLI POLI PENINSULA ARE SO FAR TRIUMPHANT

cause, the traffic men say, Tampa has water competition and water freight rates and we have not.

The salvation of the city and the making of a big city of Ocala lies up and down the crooked Oklawaha and this paper for one will never rest till we have solved the problem in a thorough and "forever" manner.

The other business of the meeting was then taken up.

Col. Rogers reported on the action of the board of governors in renting the Carn-Thomas Co. store, recently vacated by the English Woolen Mills, for \$15 per month, in lieu of \$40 at the present location. The action was approved and ratified.

The report of the finance committee was heard. The committee has been able to secure monthly pledges of \$190, considered good. As there can be nothing expected in the way of aid from the county, the president and other members stated that it would be necessary to curtail expenses. Gainesville, one of the richest inland towns in the state, has been compelled to disband her board of trade. It was the sense of the meeting last night that we continue and keep up the good work, but economize.

On motion, the salary of the secretary was fixed at \$1500 per year.

Arrangements were ordered made to move on Saturday to the new quarters in the Carn-Thomas building.

#### SUSPENDED THE SHERIFFS

#### Governor Trammell Follows Line of Procedure Indicated by the Supreme Court

Tallahassee, April 28.—Governor Trammell yesterday sent to the Senate an order suspending from office Sheriff W. C. Spencer, of Hillsborough, and George B. Baker, of Palm Beach, as a result of charges of neglect of duty in not bringing about the suppression of gambling houses in their respective counties. The governor's order follows an opinion handed down by the supreme court as to the procedure in handling such cases. The governor had previously suspended the sheriffs, the same to take effect May 20. The court held this procedure was not in keeping with constitutional provisions and today's action resulted.

Berlin, April 28.—In the Champagne district the Germans took by storm extended French trenches.

To the north and northeast of Suwalki, in Prussian Poland, Russian positions along a front of over twelve miles were captured.

The English attempts to recapture lost ground in Flanders yesterday failed.

French attacks at Lepretre were repulsed. The Germans now hold Hartmansweiler Kopf.

#### SUBMARINE SUCCESS

Vienna, April 28.—An Austrian submarine torpedoed and sunk the French cruiser Gambetta in the Adriatic. Part of the crew was saved.

A dispatch from Amsterdam states that the British consul has announced all English ports closed to foreign vessels.

#### ADMIT RUSSIAN ADVANCE

The German-Austro losses in the Uszok pass and at the Carpathian front at Stryj in the recent fighting was 41,000. The Russians gained two miles at Uszok pass, according to a News dispatch.

#### DARDANELLES KEEP UP SUBBORN DEFENSE

Constantinople, April 28.—Two battleships of the Anglo-French fleet before the Dardanelles forts were badly damaged. The Gallipoli peninsula has been cleared of British troops except at one point, where the soldiers are protected by the warships. The Turks captured a thousand prisoners.

#### ORGANIZING A MARION COUNTY SUE EXCHANGE

In response to a call a number of citrus fruit growers of Marion county met at the headquarters of the Florida Citrus Exchange in the Munroe & Chambliss Bank building this afternoon.

The object of this meeting is to organize a Marion county sub-exchange. Four local associations, which have just been organized were represented at the meeting and signified their intention to become members of a Marion county exchange. They are located at Citra, McIntosh, Eastlake and Candler. The meeting is being presided over by Mr. S. H. Gaitskill of McIntosh.

Besides the associations mentioned a number of the largest individual shippers in the territory, who have been shipping through the exchange during the past season, are also represented at the meeting.

Mr. A. R. Sandlin, of exchange headquarters, has had an office in Ocala since last September, attending to the shipments of this territory, though no county organization had been formulated.

The meeting is now in session, and we understand that a sufficient number of representatives of the local associations have signed up to form an association or sub-exchange in Marion county, and that the headquarters will be in Ocala.

Among the prominent growers present are Messrs. J. G. Glass, Z. C. Chambliss, E. L. Carney of Ocala; S. H. Gaitskill, W. M. Gist, S. D. Brown of McIntosh; I. F. Bennett of Istachatta; J. H. Mathews and W. H. DeLong of Candler; J. C. Pillans, Electra; Dr. E. H. Camp of Lake Weir; J. E. Klock of Eastlake.

Whether a packing house will be erected here for the handling of the exchange's fruits will be determined later. However, it is thought that a central packing house will be necessary to handle the fruit of the growers who have not sufficient capacity in their present houses nor suitable railroad shipping facilities.

The location of a sub-exchange in Marion county has long been the aim of the members of the association who have been shipping through the exchange with such satisfactory results for several years.
